It Ends With Us

Synopsis

The newest, highly anticipated novel from beloved New York Times best-selling author, Colleen Hoover. Sometimes it is the one who loves you who hurts you the most. Lily hasn't always had it easy, but that's never stopped her from working hard for the life she wants. She's come a long way from the small town in Maine where she grew up - she graduated from college, moved to Boston, and started her own business. So when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life suddenly seems almost too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan - her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. With this bold and deeply personal novel, Colleen Hoover delivers a heart-wrenching story that breaks exciting new ground for her as a writer. Combining a captivating romance with a cast of all-too-human characters, *It Ends with Us* is an unforgettable tale of love that comes at the ultimate price.

Customer Reviews

*** 6 Star Review ***After reading *It Ends With Us* by Colleen Hoover I was at wits end on how to

review this book. There are just not the right kind of words to describe this reading experience without giving away spoilers. It's a novel that each reader needs to experience themselves. The only word I could use to accurately describe this novel is PROFOUND. It Ends With Us is not the typical romance. I wouldn't even put this novel in the romance genre. It is more like a contemporary fiction novel or womens fiction novel. I would suggest that readers stay away from social media and sites where spoilers and in depth reviews are posted . This type of influence could give the readers the wrong perceptions going in. I highly recommend going into this novel "blind", free of any influence from the outside world. Colleen Hoover is a gifted writer that delivers a unique reading experience with every one of her novels. It Ends With Us has layers upon layers within the overall plot of the story. Each and everyone of her characters are multi dimensional. There are so many shades of gray within this novel. Colleen colors these shades of gray and gives the reader a completely different perspective. As this novel progresses, the colors change in value and tone, very much like a kaleidoscope . In the end the reader walks away with new perceptions, a deeper understanding of these life circumstances, and hopefully a more tolerable opinion. Each character in this novel was shaped by their pasts. There were cracks in their entire being. They were both good and bad, loving and hateful, and lastly broken but not beyond salvation. They were who they were and had to choose how to proceed in their future lives.
