Revolution At Point Zero: Housework, Reproduction, And Feminist Struggle (Common Notions)

Synopsis

Written between 1975 and the present, the essays collected in this volume representÂ years of research and theorizing on questions of social reproduction and the consequences of globalization. Originally inspired by Federici's organizational work in the Wages for Housework movement, the topics discussed include the international restructuring of reproductive work and its effects on the sexual division of labor, the globalization of care work and sex work, the crisis of elder care, and the development of affective labor. Both a brief history of the international feminist movement and a contemporary critique of capitalism, these writings continue the investigation of the economic roots of violence against women.

Customer Reviews

Silvia Federici is a thrilling discovery for anyone looking for clear, densely informative and passionate analysis of the political state of the world, and woman's position in that world.

Excellent collection from a new small press that highlights the novelty and continued importance of Italian feminism and the international wages for housework campaign from the 1970s to today. A must for radical theory.

This book is amazing for getting to the nitty gritty issues regarding women, society & capitalism. A

must for those questioning their domestic role in relationships

Pretty interesting and makes you think about women's position in the world. I would recommend to expand your views of the position of women.

great book
