Serial Killers: The Worlds Most Notorious And Ferocious Serial Killers: An In Depth Analysis Of Serial Killers Minds

Synopsis

Volume 2 of The Worlds Most Notorious And Ferocious Serial Killers: An In Depth Analysis Of Serial Killers Minds*****Get Your FREE BONUSES When You Download This Book!*****Serial killers are people who defy the very concept of humanity. These people are able to remorselessly slay somebody without even the slightest regard for life. While most people associate death with grief, these inhumane monsters associate it with happiness and joy and even sexual gratification. It gives them the utmost pleasure to watch the life disappear from the body of their victim. What can be so wrong with them that their emotions conflict to such an extent with the rest of the population? Is it a disease, an illness or just a complicated childhood? While you may begin to feel bad for these killers when you hear their back-stories, the stories of their gruesome crimes makes it impossible to spare even an ounce of sympathy and pity for them. So read on to know what drove these seemingly normal human beings to become serial killers. In this book, you will get a chance to explore the lives of six serial killers to get to know the reasons behind their madness. These killers became sadistic psychopaths for a reason. Some of them for the power, others to satisfy their ego and some others because of a traumatic experience that scarred them for life. Here Is A Preview Of What You'll Learn...Serial Killers â “ John Gacy â “ The Killer ClownSerial Killers â “ Robert Hansen â “ The Butcher BakerSerial Killers â “ Dennis Rader â “ The BTK KillerSerial Killers â “ The Moor Murderers â “ Ian Brady and Myra HindleySerial Killers â “ The Chessboard Killer â “ Alexander PichushkinSerial Killers â “ The Vicious Aileen WuornosMuch, much more!!If you want more serial killer stories and insights then download volume 2 of this popular series!Tags: serial killers, murder mysteries, true crime, true murder stories, true crime stories, cold cases true crime, cold cases solved, cold cases, missing people, missing persons, crime killers, unexplained mysteries

Customer Reviews

My problem with this book is that I am a former CSI. I have seen too many murders and cleared too many cases. I'm now 72 and I've been away from murder for a long time. I downloaded several books about murder cases and found them depressing. I'm sure that people who haven't seen as many murders as I have would find this book fascinating. The first murder I saw, two days after I became a cop, was the stabbing death of a young mother. It did not become a cold case; her husband was found two blocks away sitting on the curb crying. Her baby was crying in the room where the mother lay, and everybody was afraid to go into the room to get him. I handed him across the floor to his grandmother. The young mother had bled dry; the knife, a short blade of a pocket knife, had hit her breastbone, corkscrewed, and gone straight into her heart. She bled dry. You cannot imagine how much blood was on the floor. That was my introduction to murder. This book brought those memories back. I'd rather not remember. That is my own reaction, not a comment on the book's quality.

This book speaks out how psycho a notorious killer is, All of them are all psycho, without any doubt they are satisfied in killing someone. One of the reason why I downloaded this book because my cousin is seeking for a story of a serial killers for her play this coming Halloween party at school and this book was my first choice. A very interesting fact that they are notorious killers but how come they killed many people without being arrested by cop?. For me I think this book speaks out on how to be careful in everyday living because we may not know who and what person we met in everyday. This book is a very excellent book and story of serial killers. This book is highly recommendable especially right now Halloween is nearly coming.

Why is this book in the White Collar Crime category?

This book was just OK for me.

an interesting book
