## Customer Reviews

well once again i have everybook in this series and find them so so helpful beautiful music for students to learn from and the book itself is laid out well...not at all boring or a jumble of scales together but the student also learns all they need and can advance with the series..

I love this series of books (except for the duet and solos ones). They are well-paced, thorough, and tuneful. I use them instead of the more traditional (and boring) Rubank books, and I have not noted any deficiencies in my students' technique. Alternatively, they are also good for sight-reading, which is what I use the Tunes for Technique volume for. Highly recommend.

My daughter is in her 2nd year learning the clarinet and this book is very helpful.
