Customer Reviews

I bought this book and Book 2 so that I could have a systematic method of returning to clarinet playing after a long absense. As a clarinet performance major, quite awhile ago, clarinet is not new to me. I am re-visiting books I used to use, and I always loved this book. Still do. It gives you a variety of practice, in phrasing, musicality, articulations, slurring, various keys....I use it along with scale and chromatic exercise books and really love using it.

As a clarinet "re-learner" after many years of not playing, I can say this book has been both very beneficial and very enjoyable to play from.

I used my professor's copy while taking lessons, and then bought my own. Lots of pretty good musicians in the band use this book too.

Timely service, product in excellent condition and at a good price. Very pleased with our experience.

I knew I needed it, just wish it had gotten here a bit sooner. Arrived in good condition.

Great item. Excellent price. Quick delivery. Thank you!!!

Excellent way to practice the basics of music.
