Campfire Songs

Customer Reviews

First off, this book is so small that you can't open it to a song and put it on a music stand and play. It is like a little novel that won't stay open to any particular page. Second, the songs are all stupid. These are not campfire classics. I don't know 90% of the songs. Don't waste your money.

I wanted chords - not a one in this book - just shows single notes and lyrics

Lots of good campfire songs in a variety of genres. Music is a little on the small side for my older eyes and novice playing level, but still a very good purchase.

Needs to be in a binder so that musician can keep the book open while reading the chords!

It was just what I wanted. It had a wide variety of campfire songs.

I am looking forward to playing these songs!

My family enjoyed this book very much.

Great choice to teach my beginners
