Ultimately disappointing! 30 pages of large print! You can read it in an hour or less. Most of it is just

fluff and philosophizing. The salient content could be condensed into a page or two. A waste of my money!

This guide give you the basics str8 4ward real talk. The author essentially gives you the meat n potatoes; thankfully holding the lettuce! Easy read truly takes about an hour and feels like a conversation instead of a lecture. To the author! thank you!

Absolutely loved this book. Was on the net searching around for a TOOL to help me with my song writing. After wading through about a ton of misses that really didn't do much for me, I happened to glance upon this book. Wow, how perfectly it fit for my situation. Although I love to write I was a bit rusty and this book found a way to bring the good song writer out of me. Recommend this title to anyone looking to write their first song.

This book was well thought out and contains many tips on how to write songs. This book teaches the basics for a beginner like me and makes it looks easier than I ever thought. I have been contemplating writing songs for awhile now and this has given me that little push to get started.

Thank you this book helped me so much In my song writing ability.

This "book" which should be called a pamphlet is only 30 pages, front to back. It actually says in it that a song is nothing more complicated than a result of words + music = song. Ummmm duh?!

Very minimal but informative targetted for beginners. Mentions some of the good practises needed as a song writer and touches the aspects of lyrics melody and pop song structure.

Loved the book. It was super helpful and broke down how to get into songwriting to laymans terms. I highly recommend for anyone looking to get into the music industry.
